Re: Application for Diane Willard
Personal Recommendation
529 North Shore Rd.
Spofford, NH 03462

Dear Somatic Institute:

It is my pleasure to offer a letter of recommendation for Diane Willard. She has been a personal client and a student for over 4 years in the field of energy healing of the soul in my on going women's group for personal and spiritual development using multi-levels of energy healing and therapy.

Diane's search in personal growth has taken her on a journey that I have had the honor to witness with respect and awe. I find her heart is in need to develop her gifts as a Healer with a truly passionate desire to continually self educate, and be in search of wisdom while sharing with others to enhance her natural instincts. She craves to learn and receive with integrity and an open mind.

In the more than four years of working with Diane I find her strength to face life with honesty and hope is always present. She engages situations with courageous grace for herself and others. She brings thoughtfulness, knowledge, and intuition, with a sincere gratitude to serve. Diane has respect for guidance. Her intuition proves insightful and intelligent. She listens, watches and waits to interact in healing processes with kindness and directness. She enters process ALWAYS, with intent for herself and another to take a chance and make, "A Change for the Best".

Diane's asset is a loving force that will bring to you a resource of her own making, her life and the way she lives it. She is profound, funny, dependable, intense, loyal and humble; mostly she is someone I respect because she is real. It is my honor to know her and have the blessing of her heart touching mine.

Yours Truly,

Reverend Sandra L. Harrick
